

About us

- a short overview

Who we are

S-International Schleswig-Holstein is a regional sales and settlement handling company for the international corporate customer business of the savings banks in Schleswig-Holstein, Germany's northernmost federal state.

S-International Schleswig-Holstein was founded in 2021 by Förde Sparkasse, Sparkasse Holstein and Sparkasse Südholstein as an independent company and currently combines the international business and interest rate and currency management of seven savings banks: Our 3 owners as well as Nord-Ostsee Sparkasse, Sparkasse Westholstein, Sparkasse zu Lübeck and Kreissparkasse Soltau.

Important fact: We are purely an order processor and sales force! We are acting for and on behalf of the savings banks. The customer relationship is always between the respective savings bank and their customer.

What we do

We have created a sales unit that is geared to customer and market needs, in which specialists for international business are bundled and respond to the individual needs of customers in order to be able to provide them with customized needs. By specialising in terms of advisory services, uniform products and processes, we offer customized services and efficient processing in cooperation with our network partners.

We offer the entire range of international corporate banking:

- foreign payment transactions
 - documentary business
 - foreign trade financing in the intermediary business
 - currency business (including F/X)
 - interest rate management
- and various services for foreign activities.

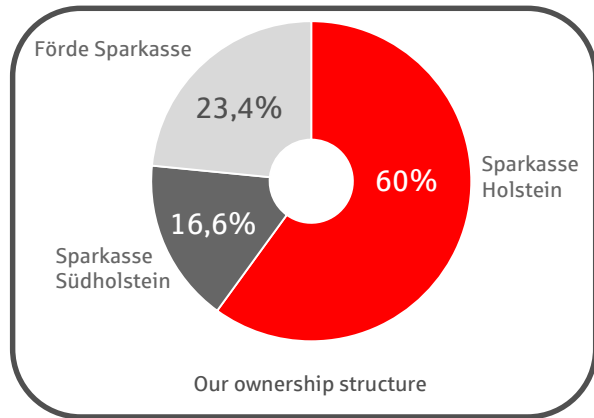

What this means for you

The most important visible change is in the documentary business: To ensure that documents are processed as quickly as possible in the interest of all parties and that the corresponding payments can be made, please inform your contract partners. They should instruct their banks to send any documents to:
